- Word Press
- MySQL (Basics)
- MS-Office
- Python (Basics)
- Java(Basics)

Achievements

- I have received a BEST PERFORMER award from Mahindra Pride classroom (soft skills training program)

Objective

"An innovative and dedicated individual with a passion for leveraging technical knowledge, I am actively seeking an opportunity to contribute to an organization's growth. Eager to apply my robust foundation in programming and problem-solving skills, I aim to become a valued asset, while continually learning and advancing in a professional environment."

Projects

● **SIMPLE REACT E-MART**

E-Mart, a React e-commerce platform, excels in state management using useContext and enhances user navigation with dynamic routing for a seamless shopping experience. It merges React's flexibility with a user-friendly interface, setting a new standard for online shopping.

● **RESTAURANT WEBSITE**

Crafted a React restaurant website with an outstanding UI and useContext for streamlined cart functionality. Prioritized simplicity for seamless ordering, delivering an efficient dining experience.

● **IMAGE-GALLERY-APP**

Developed a React image gallery app with API integration for fetching images. Implemented light and dark modes for background customization, providing a versatile browsing experience.

● **REACT SHOPPING -LANDING PAGE**

Crafted a dynamic React shopping landing page with striking banners, seamlessly blending functionality and aesthetics for an optimal online retail experience.
